

DT-R008

Features

- Data Acquisition and Control Module (DA&C)
- 8 digital inputs and 8 relay outputs
- LED indicator
- Protocols: Modbus/TCP, TCP/IP, UDP, HTTP, DHCP, MQTT
- Integrated web server
- Watchdog function for system recovery
- AND logic operations between inputs and outputs (from version V3.1.5406))
- 1 Ethernet port 10/100 Base-TX
- 1 WiFi port

Specifications

Inputs	8 Digital
Outputs	8 relays
Protocols	Modbus/TCP, TCP/IP, UDP, HTTP, DHCP, MQTT, SNMP
Communication	1 Port 10/100 Base-TX 1 WiFi port
Watchdog	System: Programmable Communication: Programmable
Special functions	AND logic operations between inputs and outputs (from version V3.1.5406))
Connectors	Plug-in / screw-tightening connectors
Dimensions	87x122x27mm
Temperature	Functioning: -10~85°C
Power	12VDC-24VDC 12VAC-24VAC
Current	1.5A@12VDC
Consumption	5W
