

## PD-60-UPS-P

### Features

---

- Power supply distribution box
- 1 input AC 100-240 V 50/60 Hz
- DC output voltage 12V 5A
- Multiple protections
- UPS function with external battery of 17 AH
- Plastic protective case

# Specifications

|                    |                                              |
|--------------------|----------------------------------------------|
| Power supply input | DC output voltage 12V 5A                     |
| Output voltage     | DC 12V 5A                                    |
| Backup battery     | External (17AH)                              |
| Protection         | Short circuit / Over voltage / Current peaks |
| Temp. operation    | -25° C ~ +60° C                              |
| Dimensions         | 282 X 220 X 109mm                            |
| UPS function       | external 17AH Battery connectors             |
